VOLUME CVI.--NO. 244. ALEXANDRIA, VA., SATURDAY EVENING, OCTOBER 14, 1905. PRICE 2 CENTS.

TIRED OUT.

There's many a wife sits in the growing shadows of an evening, knowing what it is to feel tired out; as if there was not another ounce of effort left in her. But if healthy she knows how sound her slumber will be and how refreshed the morning will find her. But it's another thing for the sick woman to feel tired out. Rest only seems to increase her suffering. She feels acutely the aching back and throbbing nerves.

Sick women, hundreds of thousands of them, have been made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I am pleased to inform you of the benefit I received from using Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,'" writes Mrs. Elizabeth A. Oswold, of 45 Brant Street, Windsor, Essex Co., Ontario, Canada. "Was quite discouraged when I wrote asking your advice, as the physicians here told me I could get no relief except by an operation. Suffered for four years from irregular and profuse menstruation, had sick and nervous headaches most of the time, and at times could hardly walk across the floor from weakness. I thank God there is such a remedy as Dr. Pierce's Favorite Prescription for suffering women. Before I had taken the first bottle the headaches had left me and it was not long before regularity was established and still continues so. Have just finished house-cleaning which I never expected to be able to do again, and can truly say I never felt better than at present. I gladly recommend 'Favorite Prescription' to all who suffer from female weakness. It has cured me and made me stronger in every way. Neither my husband nor myself can say enough in its praise."

The selfish seller who urges some substitute is thinking of the larger profit he'll make and not of your best good.

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

HAMLINS

WIZARD OIL

is a treatment which affords a positive cure for rheumatism and allied diseases.

Applied externally, it relieves the pain at once. Taken internally, it cures permanently by purifying the blood of the lactic acid which causes the disease.

Anthony Smith, of Mayville, Ill., says: "I had such severe rheumatic pains in my arm and shoulder that I could neither work nor sleep and was fast losing all hope of cure, when I heard of and tried Hamlins Wizard Oil, two bottles of which performed a perfect, permanent cure." Price, 50c and $1.

Great Britain's Alleged Offer.

The Paris newspapers are adding new phases to the disclosures concerning the alleged revelations of Great Britain's offer of naval and military aid to France, if Germany assumed a belligerent attitude over Morocco.

The Figaro gives a detailed version even more sensational than the previous alleged disclosures of the Matin. It says that the previous report of Great Britain offering to mobilize her navy and land British troops in Germany is not correct, but that the actual occurrence was as follows:

Before the Moroccan crisis became acute the British government made three distinct overtures to learn if France was disposed to conclude a treaty of defensive alliance. France declined to consider the question. Later, when the Moroccan crisis became acute, Paul Cambon, the French Ambassador to Great Britain, reopened the question and obtained a verbal assurance from Foreign Secretary Lansdowne of Great Britain's effective support in the event of hostilities. M. Cambon was thereupon able to announce to M. Delcasse (who was then foreign minister) that if a case coming within a treaty was desired, Great Britain would reiterate her assurance in writing. The German Ambassador in London, Count Wolff-Metternich, learned of these assurance and informed Berlin. Emperor William decided on a counter move and made Italy the medium of its execution. He informed Italy that any treaty whereby Great Britain gave France military support relative to Morocco would constitute a casus belli.

The Figaro asserts that this amounted to an indirect ultimatum and that the Italian Government communicated the situation to M. Barrere, the French Ambassador to Italy, who informed Paris, June 4. Immediately thereafter M. Delcasse resigned (June 6) as a result of a violent scene in a Cabinet council. During this council M. Delcasse is alleged to have said: "I have a formal assurance of Great Britain's support." Premier Rouvier is represented as answering:

"And I have M. Barrere's telegram proving that this means war if we continue your policy. I refuse to indorse what you seem to treat so lightly."

The other ministers are said to have upheld M. Rouvier, whereupon M. Delcasse resigned.

The foregoing version is chiefly important in the allegation that Great Britain sought for and promised a military defensive alliance against Germany.

Later a semi-official note was issued saying that the "published reports upon the incidents accompanying the resignation of M Delcasse, and notably the details regarding the Cabinet council preceding his resignation are inexact."

The issuance of this denial steadied prices on the Bourse, which showed uneasiness over the agitation.

The Foreign Office has received from the Spanish government its official acceptance of the proposition that Algeciras, near Gibraltar, be used as the place for the Moroccan conference.

With reference to the Paris Matin's alleged disclosures, it is authoritatively stated that the British government does not intend to issue a formal statement on the subject, but it can be said that the government has communicated to Germany a statement to the effect that Great Britain did not offer to assist France in the event of an attack by Germany, and that France did not ask for such assistance.

The Cologne Gazette prints another inspired dispatch from Berlin apropos of the Figaro's additions to the Matin's story, which can be interpreted only as a plain hint to the British government to explain its role in the matter.

The dispatch notes that while the Matin's versions only gave ground for the assumption that the suggested alliance of France and Great Britain against Germany had an official character, the Figaro's version confirms this assumption by giving the names of parties, and says that this makes the case against M. Delcasse all the stronger. The mention of the name of Lord Lansdowne, the British Foreign Secretary, in connection with the matter sheds upon the story an embarrassing light for Great Britain, according to the dispatch, which says:

"It is exceedingly repugnant to us to regard British statesmen like Premier Balfour and Foreign Minister Lansdowne as capable of such a game, but if such revelations are repeated and remain uncontradicted one cannot avoid growing more and more skeptical about the matter. The question arises as to how it was possible that French statesmen, who undoubtedly are men to be taken seriously, could have believed that there was an offer of a British alliance if no adequate basis existed for such an exceedingly serious matter."

Insomnia and Indigestion Cured.

'Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Tullamore, Ontario, Canada. For sale by Gibson & Timberman and W. F. Creighton & Co.

Three for the Giants.

Three-fourths of the world's championship at baseball is now in the grasp of the New Yorks. They defeated the Philadelphia Americans, 1 to 0, at the Polo Grounds, New York, yesterday in the fourth game of the series. Every game of the world's series so far has been a whitewash one way or the other. In no contest has both teams scored. Yesterday the New Yorks coated the Athletics with calcimine for the third time. As the New Yorks have won three games out of four, the Athletics must win the next three straight to win the series. The unexpected happens sometimes in baseball, but to win three straight the Athletics have an undertaking that makes Hercules' Augean stables clean-up a perfect siesta in comparison. McGinnity was at the pinnacle of his prowess on an occasion that was the most dramatic of his long diamond career. His mind was concentrated on his work; he studied every attitude of the opposing batsmen, and rushed the ball through with a studied purpose in every pitch and with results that showed that he knew what to give the different Philadelphia batters. His arm worked freely, and he pitched a good many balls, but the more he used the less the visitors were able to get hold of them.

Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at E. S. Leadbeater, & Sons, druggists.

SATURDAY EVENING, OCT. 14, 1905.

THE PRESENT public printing system as carried on at the government printing office is attracting considerable attention. Five years ago the government spent $4,905,881 for printing. That was an increase of 50 per cent over the sum spent in 1890. But so rapid has been the increase in output that in 1904 the appropriation rose to $7,080,906, a further increase in four years of 40 per cent. By 1910, at the present ratio of increase, the nation's printing bill will reach $10,000,000, nearly half the annual interest on the national debt. Hitherto the public printer has enjoyed an extraordinary latitude, and Congress has itself, consciously or unconsciously, contributed to demoralize the printing establishment, both by making it a hunting ground for spoils and by authorizing or tolerating the production of thousands of volumes of printed matter whose only destination was the fuel bin or the ash heap. Stories are being heard on all sides of the extraordinary difficulties encountered in getting unmarketable government literature into circulation. The chairman of the committee on printing in the last House of Representatives, Mr. Charles B. Landis, of Indiana, has recently been telling of some of his experiences with literature of this sort. Here is one of his statements: Last winter a large number of books dealing with irrigation, handsomely bound and magnificently embelished, were sent to a member of Congress. He didn't want them and his constituents wouldn't take them. He offered them as a gift to the negro porters, but the porters refused the books. Finally he had to hire one of the negroes to throw the books away. Mr. Landis also declared that he had tried to send a certain treasury publication, costing $100,000 a year to print, to bankers in his Indiana district. "Now, the bankers in my district," he confesses, "will contribute to my campaign, make speeches for me and support me in every possible way, but they will not accept the financial publication in question. They have sent me tearful appeals not to frank it to them." Mr. Landis says that there is much duplication in the printing of department reports—notably in the reports of the Department of Agriculture.

AFFAIRS IN Russia are still in an unsettled condition and Gorky says a revolution is inevitable. But one of the Moscow papers appeared yesterday. The teamsters of the city slaughter houses have struck. The printers of St. Petersburg will meet tomorrow to consider the Moscow strike and their own grievances. There is a strong strike sentiment among the men. A meeting of conservatives from all parts of Russia called for the discussion of the electoral campaign is being held at St. Petersburg. The delegates generally express dissatisfaction with the present order of things, and say that the disorder and confusion in various parts of the empire are to be ascribed to the inefficiency of the government. They demand the removal of the present Ministers. A mass meeting of students held in Odessa yesterday decided by 778 to 502 votes against reopening the Odessa University until the state of siege is raised, and that it should then be opened exclusively for a polltical struggle until full civil rights were granted to all Russians. Several wagonloads of rifle ammunition in charge of Jewish teamesters were captured at Lomza yesterday. They were on their way to Warsaw. An outbreak occured at Reval yesterday among the prisoners in a provincial jail, and the guards were forced to fire two volleys from revolvers to quell the uprising.

THE LONG drawn out divorce case of Captain Elmore F. Taggart against his wife has at last come to an end. By the decision of the court in Wooster, Ohio, the captain has been granted a divorce from his wife and the custody of his two children. The case has been of exceptional interest because of statements at the trial by Captain Taggart that the use of intoxicants in the army was so common as to be almost the custom. A number of prominent officers were named in Captain Taggart's petition as having been more or less the cause of his domestic troubles. Half a century ago the famous Forrest divorce suit attracted considerable attention. That of Taggart vs. Taggart has probably caused equally as much.

SECRETARY SHAW made a speech to the bankers assembled in Washington Thursday on his favorite theme of the need of an American merchant marine. On this subject the Philadelphia Record says: "The shipping business is generally overdone; vessels are in all our ports seeking cargoes; our shippers have as favorable terms to South America and more favorable terms to South Africa than English shippers; the lack of American ships has not prevented the enormous expansion of our foreign trade, and it is not preventing a single American manufacturer from getting his goods to a foreign market."

THE Cunard Steamship Company, which has operated a transatlantic line of steamers since early in the forties, had up to last Wednesday enjoyed the reputation of never having lost a passenger entrusted to its care. On that day a tremendous sea boarded the steamer Campania and swept five steerage passengers overboard. The accident resulted in the injury of a number of others. One of the stipulations on tickets purchased from the company is that it will not be responsible for acts of God or the King's enemies. The disaster referred to above must come under the first heading.

THERE IS friction between Germany and England, and the former country is pushing Great Britain for a positive denial of the statements recently made in Paris to the effect that had Germany attacked France last summer as the outcome of the Moroccan dispute England was to land troops in the fatherland. Germany is incensed at the allegations and does not seem satisfied with England's statements to the effect that she would have merely given France diplomatic support in such an eventuality.

IT IS announced that Governor General Wright, of the Philippines, will vacate his office about December 1 on account of the President's dissatisfaction with conditions in the islands. A good many people besides the President are dissatisfied with the conditions there, but do not hold Governor Wright responsible and Secretary Taft's recent remarks indicate that the conditions are not such as are likely to be materially altered by a change in the governor generalship.

AND NOW has come those dreadful days when a fellow has to pay for both ice and coal.

Washington, D. C., Oct. 14.

The granting of a divorce to Capt. Taggart by Judge Eason at Wooster, O., probably means that the scandal will be thrashed all over again, the next time in a military court. Capt. Taggart will be expected to file charges against Lieut. Fortescue and General Miner, who were named as co-respondents in the case. Should Capt. Taggart fail to make formal charges against these officers, it is likely that the War Department will take cognizance of that portion of the court's opinion referring to Lieut. Fortescue and Gen. Miner, and cause proceedings to be instituted through the commanding officer of the Department of the Lakes. The charges which were filed some time ago by Gen. Miner against Capt. Taggart are still pending, and it is more than possible that Capt. Taggart also will be brought to trial on them notwithstanding the opinion of Judge Eason that the allegations of drunkenness on the part of the captain had not been sustained by the evidence. During the trial of the case at Wooster a high official of the War Department stated that nothing would be done in the matter until the verdict of the court should be rendered and future action would depend on the character of the verdict. Before any steps are taken now a certified copy of Judge Eason's opinion will be requested by the department. It will be referred to the Judge Advocate General for review and action in the premises, in case Capt. Taggart does not in the meantime take the initiative and file charges against the two officers named. The ethics of the profession would require that he take action immediately. It was stated at the War Department this morning that nothing would be done in the matter of the pending charges by Gen. Miner against Capt. Taggart until the return of Gen. Chaffee from his European tour next week. Department officers are reluctant to discuss the case in any of its features and would gladly drop the whole affair if it could be done.

With seven bullet wounds in his head, self inflicted, C. J. F. Pierce, known to his friends as "Major," is under treatment at the Emergency Hospital with a good chance to recover, so the doctors say. The shots were from a 22 caliber revolver, and the wounds are comprised within the space of a silver dollar at the base of his skull. An operation will be had later in the day for the purpose of locating and removing the bullets. Major Pierce was partially conscious when brought to the hospital this morning at seven o'clock, shortly after shooting himself, and insisted that it was accidental. The shooting occurred in his rooms at the Hotel Everett on H street. After three bullets had been removed from Major Pierce's head at the hospital this morning, he persisted in his statement that the shooting was accidental. The police are thoroughly puzzled over the case. They discard the accident theory as absurd, and can not bring themselves to believe that a man attempting suicide could fire seven times into his head in practically the same place. The victim's vitality is most remarkable. At the hotel it is stated that nothing was known of the shooting until the Major staggered into the office after coming down stairs from his room, and announced that he had accidentally shot himself. He then collapsed on the floor. It is said that he had been drinking heavily during the past few days. He was formerly an officer in the army, and is well known about town. Of late he has been employed as an inspector in the water department of the District government.

Peace is now an assured fact. The State Department was informed by Baron Rosen this morning that the Czar had affixed his signature to the treaty of Portsmouth, and shortly after noon Minister Takahira brought the news that the Mikado had performed a similar act. With the exchange of these notifications between the two governments of Russia and Japan, through the American State Department, and the French Foreign Office the armistice now existing in the field of war will be officially ended and peace declared.

M. Jusserand, the French Ambassador, had another conference this morning with Secretary of State Root on the subject of Venezuela. No additional news developed as a result of this conference which was devoted to an exchange of views on the general situation resulting from the existing strained relations between France and President Castro's government. M. Jusserand said after his interview that France was disposed to exercise the utmost patience in dealing with Venezuela but would not abate the firm attitude it had assumed.

It is announced that Wm. Barrett Ridgley, of Illinois, Comptroller of the Currency, will be reappointed to that office when his present commission expires a year from now.

In line with the action of acting Public Printer Ricketts in closing loan "symposiums" in the government printing office, Commissioner Warner of the Pension Bureau has recommended to the Secretary of the Interior the dismissal of five men from the office on account of their engaging in similar organizations for the usurious loan of money to unfortunate employees.

Theodore Roosevelt, jr., the President's eldest son, now a freshman at Harvard, arrived in Washington today, accompanied by a young classmate, to spend the week end at the White House. Theodore came home to bid his parents goodbye before their departure for the South.

The international agreement completed by the Pan-American Sanitary Convention, which has been in session here this week, with representatives present from 12 Occidental republics, will, when approval by the several governments, put the western continent from the St. Lawrence to the strait of Megellan under system a of quarantine. The Paris convention of 1903 was adopted with necessary modifications. Communication of plague and cholera by rats and yellow fever by mosquitoes form the basis of the convention.

There has never been so much gold coin in the treasury of the United States as now, and no other nation possesses an equal amount. There is $740,548,365 now on hand.

The Missouri State building at Portland, Ore., at the Lewis and Clarke Exposition grounds, including the various exhibits and the art and statuary collection, was destroyed by fire last night. The blaze was confined to the Missouri building.

The cone of Vesuvius crumbled away yesterday morning, enlarging the mouth of the crater. The explosions yesterday were more numerous than Thursday, but less violent. They were accompanied by clouds of white smoke, showing there is lava in ebullition at the summit of the crater.

The chief of engineers of the army will not make an estimates for river and harbor improvements this year to be submitted to Congress, save for the continuing contracts which have been authorized by law. There will be no river and harbor bill at the coming session of Congress.

The Italian government has adopted extraordinary measures to put an end to the anti-military demonstrations which are occurring throughout the country. Collisions have taken place at Turin and Florence between the police and manifestants. A meeting of socialists and anarchists in Rome Thursday caused a clash with the police. Several of the manifestants were wounded. The meeting adopted a resolution calling on the government to disband the military forces.

Democratic members of the House of Representatives are stirred by the rumor that the republican leaders have decided that several of the best places which the democrats have been allowed to fill heretofore must go to republicans this year. There were many such places which the majority has allowed the minority to have in times past, but the republicans are saying now that the democratic minority in Congress has grown so small it is not entitled to the number of positions formerly accorded it.

Taggart Granted Divorce.

Judge Eason, who heard the divorce case of Captain Elmore F. Taggart against his wife rendered his decision in Wooster, Ohio, yesterday afternoon. The court grants Captain Taggart the divorce and the custody of the two children—Culver, aged 11 years, and Charles, aged 7. Although Mrs. Taggart is denied possession of the children, she will be permitted to see them.

Captain Taggart was in court during the reading of the decision. Mrs. Taggart is ill and was not present. The courtroom was crowded with an eagerly expectant throng of people. Judge Eason, before giving his decision, reviewed the petitions, cross-petitions, answers and affidavits. In the course of his statement he said that the testimony was deeply touching. The charge of drunkenness against Captain Taggart, the court said, was not sustained.

The trial lasted seven weeks. The case went to the court a month ago. The suit was first started in July, 1904, by Captain Taggart, who filed a petition for divorce, charging Mrs. Taggart with conduct unbecoming a wife and alleging excessive use of intoxicants. Mrs. Taggart heard of the proceedings in San Francisco several weeks later and immediately started for Wooster, the home of the Taggarts, where she filed a counter petition for divorce against Captain Taggart on the grounds of cruelty and neglect.

The case has been of exceptional interest because of statements during the trial by Captain Taggart that the use of intoxicants in the army was so common as to be almost the custom. A number of prominent army officers were named in Captain Taggart's petition as having been more or less the cause of the domestic troubles between Captain and Mrs. Taggart.

Mrs. Lucy Smith, a good-looking young woman, who says she is from Fauquier county, was sent to jail in Norfolk yesterday for drunkeness. Her children will be assigned to homes.

The United States Government paid out $120,103.48 for the maintenance of the United States courts in Virginia during the fiscal year ending June 30, 1905. Of this amount the outlay for the Eastern Judicial District was $42,561.77, and that for the Western District was $77,541.71. These figures are exclusive of the salaries and expenses of the presiding judges, which are not included in the report.

The Holston conference of the Methodist Episcopal Church South, at Bristol, yesterday fixed the price of a stolen kiss at six months' suspension from the ministry. This was the decision in the case of Rev. W. W. The convicted minister announced that he would appeal the case.

Death of Sir Henry Irving.

Sir Henry Irving died suddenly at Bradford, England, last night.

The death of the distinguished actor was entirely unexpected. He was engaged in a tour of the provinces, appearing nightly, and a few days ago spoke at a public meeting in advocacy of the movement for a municipal theatre.

Sir Henry played as usual last night at Bradford and returned from the theatre to his hotel, where he was seized with an attack of syncope, dying at 11:30 o'clock.

Mr. Irving's last appearance was as "Becket" in Lord Tennyson's play of that name.

Sir Henry Irving stood foremost not only upon the stage of England, but upon that of the English-speaking race. By letters patent his name was Henry Irving, but he was born Henry Brodrib. He was born in 1838, made his London debut in 1859 and was knighted in 1895 by Queen Victoria.

He started life as a clerk in London, but his aspirations were toward the footlights from the first. Even at school he showed that he possesed the histrionic temperament. When an actor of high repute heard the schoolboy Irving recite he was impelled to utter words of pronounced encouragement.

Again, when the lad presented himself at the age of 15 at the city elocution class, a schoolmate testifies that he was "very handsome, with a mass of black hair and eyes bright with flashing intelligence. He electrified the class with an unusual display of elocutionary skill and dramatic intensity."

And yet, when this rarely promising youth made his first essay upon the stage of Sunderland, the local dramatic critics found it incumbent to refer to him as follows;

"The other parts were creditably performed, with the exception of Cleomenes, by Mr. Irving, who utterly ruined the last scene but one. He came on the stage without knowing a single] word of his part, and, although he had the cue pitched at him by the prompter in a tone loud enough to be heard in most parts of the house, he was unable to follow it and was compelled to walk off the stage amid a shower of hisses."

For years Irving fought for possibilities in which few but himself believed. The terms for his apprenticeship, exacted by the conditions of his art, were of an ardnousness that would appall the spoiled modern actor. His first stage engagement was at $2.50 a week. For a salary of $7.50 a week he appeared during two and a half years in 428 characters, including a female part in a pantomine. Before he attained success in London he had acted nearly 600 parts.

In London his advancement was, on the whole, comfortable and quick. Charles Dickens was the first to detect his genius. "That young man," he said, "will be a great actor.

Irving appeared in the United States before large audiences and was greatly appreciated.

Artilleryman Killed.

Private Albert Laste, of the Twenty-ninth Battery of Field Artillery, was killed during target practice at Fort Riley, Kansas, yesterday. Privates John Connelly and G. J. Simpson, of the same battery, are thought to be fatally injured, while Privates Leary, Norman, Lancaster, and Cline, of the same organization, are in a hospital with broken limbs and internal injuries. A large number of other artillerymen were hurt. The casualties were caused by frightened horses galloping over a precipice with riders and limbers.

The accident occurred while north of Fort Riley. The Twenty-ninth Battery is one of the six making up the First Provisional Regiment of Field Artillery at target practice. The battery's guns had been placed and its eight limbers, loaded with ammunition, were at the rear with with six horses hitched to each limber. The drivers had dismounted. When the battery was ready for firing a large red flag was run up on a staff as a signal to the range party at the targets to get out of range of the guns.

The wind blew the flag out in the faces of the horses, and they stampeded at once. Some drivers succeeded in getting into saddle, others were dragged, but most of the drivers were left behind. The horses dashed over a small cliff and went down in a mass with their riders.

The Seventieth Regiment.

Colonel Anderson has issued an order through Major and acting Adjutant Bossieux, bringing out the Seventieth Regiment for parade on the occassion of the visit of the President in Richmond next Wednesday.

The order is now in the hands of the captains of Companies A, B, C, F and H.

The order calls out the field, staff and companies to assemble at the armory at 10 o'clock Wednesday morning, in blue uniforms, for parade. The order is issued at the request of Captain Morgan R. Mills, grand marshal of the day.

Today's Telegraphic News

Passengers Washed Overboard.

New York, Oct. 14.—The Cunard steamer Campania which arrived today from Liverpool and Queenstown, shipped a sea on October 11, which resulted in the injury of a large number of steerage passengers and the loss of five or six. About one o'clock in the afternoon of that day the Campania was running along at her usual speed with a huge quartering sea when the steamer lurched suddenly to port, and scooped up an enormous sea. The sea boarded the Campania about midships on the port side and completely swept the steerage deck and washed a large number of steerage passengers aft. The sea filled the space between the decks and smashed out a door in the rail through which five passengers were swept away and lost. About thirty were injured, some very seriously. The stewardess, Miss Cates and the deck steward managed to save several children who were washed toward the open door. The steamer's side was buried so deep in the water that the passengers on the deck above saw the water rise up to their waists. The great sea washed aft with terrific force and then surged forward. Its power was irresistible, and there was no possibility of escaping from its rush. One young woman had both legs broken at the thigh and died this morning. Several passengers had arms and ribs broken. On arrival here they were sent to the hospital while a large number were nursing bruises of all sorts. One of the crew was also injured. One of the women passengers fell down stairs and was slightly injured. Dr. Verdon, the ship's surgeon, was aided by several passengers who were on board. A passenger on board said that he had fears that two women and three men were lost, but said that although inspection was made, there was no report given out of the number lost. "I don't believe they know themselves how many are missing," he said. "When the sea boarded the Campania the steerage passengers were sitting about the decks, some of the women singing. The deck runs on both sides from a point under the bridge aft to a short distance of the stern. The deck above shelters it and a high rail wards it. Between there and the upper deck a rope netting fills the space to protect the passengers from being washing overboard. In the rail, which is a solid plated wall about four feet high, are several swinging doors or open scuppers to allow the water to pass off when any is shipped. These opening are crossed by iron bars or gratings. It was through these openings that passengers were forced by the terrible rush of waters when the deck was filled.

Some of the passengers complained bitterly that no attempt was made to rescue the passengers who were carried away. The vessel was not stopped, they declared, but continued her course as if nothing had happened. They also declared that the gate, through which the ill-fated passengers were swept into the sea, was fastened only with a rope. Had an iron pin been used, as would have been the case, they insist, the gate never would have given away and no one would have been lost. A sailor who was among the injured died this morning.

Fire Started by Crazy Man.

New York, Oct. 14.—A fire which occurred this morning in the six story tenement on Clinton street created a panic among the many families who occupied the building. They were called from their beds by the shouts of fire and made their escape from the building by means of the fire escape and taking to the roof were all taken out without injury. Simon Greenbaum, aged 23, who occupied a room in the building, acknowledged that he started the fire. Greenbaum was only recently released from the insane asylum on Ward's Island, where he was confined for sixteen months, and it is believed that he again become deranged. Greenbaum occupied a rear room on the first floor of the building. He was sitting in his room, dressed only in his night clothes, when he set fire to his bed. He is a clothing cutter, and in his room was a large pair of tailor's shears. With these Greenbaum, after starting the fire, stabbed himself eight times about the throat and breast. He then ran into the adjoining tenement, where he hid himself in the hallway. When arrested Greenbaum admitted setting fire to the bed and said that a "little black man" had told him to do so. He was taken to Gouverneur Hospital and later to Bellevue, where he was confined in the insane ward. The room in which Greenbaum started the fire was gutted, and $65 belonging to the young man was burned up. Little damage was done to the tenement.

Gypsy Queen Dina is Dead.

Reading, Pa., Oct. 14.—Grief has fallen on the gypsy camp, for "Queen Dina," wife of John Morgan, is dead. She broke her arm at the Carlisle Fair several weeks ago by falling off of a wagon, and had been in poor health ever since. When the clan came to Reading for the fair Mrs. Morgan was admitted to the Reading hospital, and she was discharged about a week ago. She was seated on her bed in her tent Thursday evening when stricken with paralysis and the end came yesterday.

Mrs. Morgan was a true "daughter of Pharaoh," having been born in Alexandria, Egypt. She emigrated to this country 35 years ago. In all her life she never slept in a house, having always chosen her wagon, the tent or the open fir, though she was the owner of a fine home in Dayton, Ohio, which she rented at a large sum. The Morgan clan are devout Catholics, and the body of the woman will be interred in the Catholic cemetery, wrapped in burial clothes and embalmed with spices, as is the custom of the Egyptians.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by Gibson & Timberman and W. F. Creighton & Co.

New York Stock Market.

New York, Oct. 14.—Trading in the stock market today was restricted to a great extent by the absence of leading traders and operators at the automobile races. Many of the low priced issues were in demand at advancing prices.

The Great Automobile Race.

Mineola, N. Y., Oct. 14.—One hundred thousand people lined the courses of the Vanderbilt cup race contest this morning when nineteen automobiles representing the United States, Germany, France and Italy started in a course of 283 miles. The race is ten times around a somewhat difficult track, 28 3-5 miles to the course.

It was America's premier automobile race and many automobiles enthusiasts turned out to witness the event. Every hotel and house within miles of the course was filled to overflowing for places to see the race. Many New Yorkers remained up all night in the city, and all night restaurants did a holiday business.

Scores of automobiles, filled with men and women, raced along Long Island roads to Mineola, Hyde Park and other points, to seek the best places of advantage along the well greased course.

Among the ladies in the grand stand was the Duchess of Marlborough, who was accompanied by her mother, Mrs. O. H. P. Belmont, and the Duchess was the centre of attraction.

Shortly before six o'clock, the hour sheduled for the start, Jentzy in his 120 horse power Mercedes went slowly to the starting line and awaited the word from F. J. Wagner, the starter.

It was given and the race began. At intervals of one minute, the contestants were sent away.

The racers were sent away in the following order: Drivers, Jentzy, Duray, Dingley, Lancia, Keene, Wagner, Tracy, Nazzaro, Warden, Sziaz, Christie, Cedrino, Campbell, Heath, Lytle, Chrevolet, Hemery, White and Sarotori.

The first round was highly exciting and one calculated to make the nerves of most people tingle. The contestants opened up their power and levers to the last clutch. Over the course the racers fled, halting at nothing, and negotiating the turns at Lakeville and Hyde Park at break neck speed. Lancia and his big Fiat covered the first round of 283 miles in the remarkable time of 28.49.

The first serious accident of the race, occurred to Lytle at Bulls Head, on the second round. While going at a terrific rate of speed his machine caught a wet piece of road and the big machine began to skid and half overturned. Lytle's machinist, Tattersall, was thrown from the machine with terrific force into a ditch. He was badly hurt and taken to the Nassau Hospital where it was said that he would recover. Lytle was not hurt.

Foxhall Keene had a narrow escape from death at the Willis avenue turn of the course. Going at a furious rate Keene lost control of his machine and in an instant the car plunged into a telegraph pole alongside of the road. Mr. Keene was flung out and escaped with only a few slight bruises. An examination of the machine showed that one half of the forward wheel was broken. Mr. Keene was second in the race when the accident occurred.

Mr. Keene was put out of the race by the accident.

At 10:35, the finish of the ninth round, the three leaders were Hemery, Heath, and Lancia.

Official finish, Hemery (France), first 10.52:08; Heath (France), second, 10.52:40.

Elapsed time: Hemery, four hours, 36 minutes, 8 seconds; Heath, 4 hours, 39 minutes, 40 seconds.

Hemery and Heath finished 32 seconds apart, but as Hemery started three minutes later than Heath, he wins by three minutes and 32 seconds.

Lancia, of Italy, finished third. Tracey next, but on elapsed time Tracey (American) secured third place, Lancia getting the fourth place.

Tracey finished at 11.04:36; elapsed time 4:48:36. Lancia, finished at 11. 03:31; elapsed time 5.00:31.

Mite of Humanity Baptized.

Laporte, Pa., Oct. 14.—There was a unique baptism and christening in the Lutheran Church at Dushore on Wednesday evening. The smallest baby ever born in Sullivan county, weight just 24 ounces, was baptized. She was the daughter of Mr. and Mrs. Daniel Earle, of Colly township, and was born October 4. She was brought to the church on a pillow and looked exactly like a doll. A large congregation was present to witness the ceremony, which was given historic importance from the fact that the baptismal fount used upon this occasion is an heirloom in the household of the baby's parents, having been the property of the child's great-grandfather, Rev. Mr. Earle, the first Lutheran preacher in Sullivan county. Following the baptismal ceremony an informal reception was held and all the girls and women present endeavored to fondle the diminutive specimen of humanity.

England and Germany.

Berlin, Oct. 14.—A new phase of the differences which have been aroused between England and Germany by the alleged disclosure of promises to former Foreign Minister Delcasse of France, of British support in the event of war between France and Germany over the Moroccan situation, has been presented by German papers. The papers declare that King Edward gave M. Delcasse his personal promise of military assistance in the event of the threatened war. The injection of King Edward's name into the discussion has introduced a new and personal element into the disagreement. The German papers denounce the English king as the arch conspirator against Germany. The well-known antagonism of King Edward to the Kaiser is of long standing and it is certain to be intensified by the attacks now being made upon King Edward in Germany.

Imprisoned in Burning Mine.

Brownsville, Pa., Oct. 14.—The fire in the Clyde mine at Fredericktown, where an explosion occurred yesterday afternoon is still burniug and six men are said to be imprisoned. Whether dead or alive, is not known. Rescue parties worked in short shifts all night, but as the smoke is dense, despite the work of the fans, the labor is necessarily slow. The entombed men are about 1,500 feet in the pit mouth.

The women's national championship match between Miss Margaret Curtis and Miss Pauline Mackay, both of Boston, was won today at Convent Station, N. J., by Miss Mackay by one up.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had Kidney Trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and kept them constantly on hand, since, as I find they have no equal." E. S. Leadbeater and Sons, druggist guarantee them at 50c.

Automobile Accidents.

New Brunswick, N. J., Oct. 14.—Riding at a fifty-mile an hour clip, four automobilists had a narrow escape from death in an accident on Georges Road last night. F. L. Palmer, of 4945 Hazel avenue, Philadelphia, the driver, had both legs fractured and the others were badly shaken up. The automobilists were approaching Bennett's Hill, where the turns in the road, first one way and then the other, are very sharp and short. As Palmer and his party raced around one of these small bends the machine was lost control of in the dark and suddenly swerved around in the road and dashed over a ditch into the embankment. In the crash Mr. Palmer had both legs fractured. Robert Augustus Pitts, who was on the seat with Mr. Palmer, was also badly bruised, but no bones were broken. The other occupants were Edward Leibe and William Rewalt, of Philadelphia. Mr. Palmer was taken to Wells Hospital in the ambulance.

New York, Oct. 14.—An automobile containing four women and three men, who were en route to the Vanderbilt cup race, rushed down Thirty-third street at full speed early this morning, and tearing away the railing which guarded it, plunged head first into the open cut which marks the end of the Park avenue trolley tunnel. The most seriously injured is Blanche Siebert, an actress. She sustained a fracture of the skull and was removed to Bellevue Hospital unconscious. Viola Bonner, a stenographer, sustained scalp wounds and concussion of the brain. She was taken to the New York hospital. Mrs. E. Lyon and Lillie Harris are suffering from lacerated wounds on the head, face and hands. The men who were injured, are Charles Gelshaus, Charles Spliedorf, an inventor, and Edward Hubbell, automobile manufacturer of Toledo, Ohio. Gelshaus was locked up on a charge of intoxication and criminal carelessness.

Wedding.

Burlington, Vermont, Oct. 14.—Ralph Pulitzer, son of Joseph Pulitzer, proprietor of the New York World, and Frederica Vanderbilt Webb, daughter of Dr. W. H. Webb, were married in Trinity Church, Shelburn today, in the presence of a large assemblage of relatives and friends of each. The ceremony was performed by Right Rev. Arthur C. Hall, Bishop of Vermont. The bride was gowned in white satin, trimmed with old point lace, with a veil of honiton lace, the same veil worn by her mother on her wedding day. At her throat was a brooch of diamonds and emeralds, the gift of the groom. She carried a bouquet of lilies of the valley, and white orchids. Following the ceremony a reception was held at Mr. Webbs Mansion.

Biggs, former United States Commissioner at Pineville, was sentenced to ten months and fined $500. Dr. Van Genser, Williamson's partner, in the sheep business, was given five months imprisonment, and assessed $1,000 fine. Execution was stayed until defendants can perfect an appeal.

Buzzard Potpie.

Lancaster, Pa., Oct. 14.—Joseph Peppe, proprietor of a commissary on the Kerbaugh low-grade Pennsy contract, paid $480 fines and the costs for killing 35 rabbits, five robins, one squirrel and one buzzard. The buzzard was served in a potpie and enjoyed by many Italians, but all became sick shortly afterward, and for a time it was thought that several would die. Peppe was sent to jail in default of the payment of the fine; but 24 hours in that institution induced him to change his mind, and he paid the bill.

Strikers Accept Terms.

Berlin, Oct. 14.—The strike of forty thousand electrical workers has terminated in a complete victory for the employers, the workmen having unconditionally accepted the terms dictated by the bosses. Following the colliers' strike of February this is the second crushing blow labor unions have received. Apart from the defeat the strikers lost a million dollars in wages.

Wooster, O., Oct. 14.—Judge Eason decided today to leave Tiddles Taggart, the younger boy, in the care of his mother at Wooster. The elder boy, Buster, may go with his father to Columbus. Death of W. W. Athey.

The deceased was born at Fairfax, August 15, 1836, and at the outbreak of the civil war he was made lieutenant of Company C (Loudoun Guards), of the Seventeenth regiment Virginia infantry and served throughout the struggle. He had made his home in Baltimore for a number of years, having previously moved from Alexandria to Leesburg. A widow, Mrs. Isabella Athey; three sons—Dr. Caleb N. Athey and Messrs. The berth now occupied by the Caesar (a short distance north of Jones's Point) was used by the Baltic, one of the old Collins line steamers, during the last year of the war.

Alleged Criminal Operation.

Emma Smallwood, who for the past year had been employed in the home of Col. John Hancock, a brother of the late Gen. Winfield Scott Hancock, is dead. Col. Hancock's home is at Snyder Park, two miles from Hyattsville, Md. There are conflicting reports as to the time of her death. Members of the Hancock family say that after an unexplained absence of three days she returned home Thursday night about 8 o'clock and complained of being extremely ill, and that several minutes after her arrival she fainted. Winfield Scott Hancock, the son of Col. Hancock, is said to have attempted to carry the girl to her bed, but before he could reach the room she died in his arms.

After an autopsy was performed on the body yesterday afternoon by Deputy Coroner Glazebrook and Dr. Guy Latimer, Dr. Glazebrook announced that her death had been the result of a criminal operation and expressed the opinion that the woman had been dead since at least Wednesday evening.

A coroner's inquest was held, beginning yesterday morning, and continuing behind closed doors from 5 o'clock until 8 o'clock yesterday evening, and the exact nature of the testimony, further than that death was caused by a criminal operation, would not be divulged by the jurors.

It was intimated by one of them, however, that testimony received from J. B. Williams pointed toward the man directly responsible for the woman's death.

Miss Smallwood was twenty-five years old. She enjoyed a good reputation. George W. Smallwood and Arch Smallwood, father and brother of the girl, have been notified of her death, and are expected to take charge of the body tomorrow morning. Both are at present employed at the observatory being built at Mount Weather, in the Blue Ridge Mountains. Their home is near The Plains, Va., where they own a modest farm.

Five Brothers Killed.

The police ascribe the killing of Gaetano Costa, a wealthy Sicilian, who was shot to death in Brooklyn, to the Camorra, the dread Neapolitan organization. They have learned that Costa was the last of five brothers who were sentenced to death by the society for invoking the law against its chief, and that the sentence has now been executed on all five. Costa, a scion of one of the wealthiest families of Messina, a graduate of the Real Academia-Carolina, or Royal College, never sought police protection. He knew his lot had been cast, and that if he informed no power on earth could prevent the assassins having revenge on his sisters and his own family. Love for his sisters, a recluse, living in New York, and for his wife and children, whom he was forced to leave in Italy, compelled Costa to keep silence. The executor of Costa's father's estate looted it for $88,000, a princely sum in Italy, and the brothers proceeded to secure his arrest and conviction, though warned that he was chief of the Camorra. They were informed that the death sentence had been passed on them and all fled to America.

Brothers Killed.

George and Edward Carter were killed and several others were injured Thursday night after a dance at Moultrie, Fla., as a result of a feud between the Osteens and Carters. The feud began several weeks ago with a fist fight between members of the two families. Osteen is reported to have gotten the better of the fight, and trouble has been expected ever since. Members of the two families attended a dance given at Moultrie Thursday night. George Carter approached Allen Osteen and told him he would have to fight. A fist fight followed, and Carter soon had his adversary on the ground, and was punishing him severely. Then a pistol was fired, and George Carter staggered and fell dead. A second shot from the crowd was heard, and Edward Carter ran a short distance and fell dead. Both died almost instantly. After the shooting it was found that a number of men were hurt. Four of the Osteens have been arrested, and are held without bail. A fifth member of the family has not been found.

Heredity Mysteries.

"If there is much virtue in the doctrine of inherited qualities, why is there such a vast difference, as we see in a multitude of instances, between brothers or between sisters?" said an observer of men and things. "Years ago I began to make a study of this matter, and I have a book at home filled with cases bearing on fraternal disparities. I know of a learned jurist, and a most excellent man from every point of view, who has a brother in the penitentiary. I knew of a family of six brothers, three of whom were men of the highest social and business standing, while the other three were knaves and vagabonds, outcasts from society. They had the same father and mother, the same moral and intellectual training. Whence the difference? I know of two sisters, one of whom is an angel and the other a totally depraved creature. Inherited qualities often exist and are influential in the formation of character, but the law of their transmission is wholly uncertain."—Washington Post.

Motley's First London Dinner.

When Mr. Motley, the historian, was American minister to London he had trouble at his first dinner party. Mr. Leveson-Gower says: "At that time couples were sent in to dinner in pairs, but nobody's place was fixed. Unfortunately the Turkish ambassador was allotted to Lady Waldegrave, who did not care to have him as her neighbor. She consequently told him that his place was at the other side of the table. He, with oriental politeness, did as she bade him and sat down opposite to her. This upset the whole arrangement. The couples wandered about the room like sheep that were being driven out of a field. Mr. Motley, who had every merit except a good temper, went into a passion, and I nearly died of laughing."

The Dance of the Gods.

At the great festival of the New Year held in Lassa the "dance of the gods" is performed in the presence of the grand lama. A long cable of twisted leather thongs is stretched from a high point in the battlements of the lama's palace to the plain below, and two men slide from top to bottom, lying on their chests and spreading out their arms as if to swim. The tremendous rapidity of the descent is frequently fatal to the dancers, but there are never wanting fanatics who will undertake it in the hope of a happy transmigration or adventurers attracted by the value of the reward offered by the court.

Father of Electric Railways.

The honor of first suggesting an electric railway must be accorded to Thomas Davenport of Brandon, Vt., blacksmith and electrician, inventor and scientist. In 1834 he ran a toy motor mounted on wheels on a small circular railway, and a year later he exhibited it at Springfield and at Boston. Then it gave up the ghost, and for more than twoscore years various inventors, in utter ignorance of the principles of the modern dynamo and with no source of power except the zinc burning primary battery, labored with small reward.—Century.

Proving His Love.

Bride—I know you don't l-love me! Groom—Why, child, what makes you say that? Bride—Because you're not jealous. Why, Mayme Gray's been married nearly a year, and her husband's so jealous that he's shot at her twice and tried to kill himself three times!

Poor Polish.

"So he said I was a polished gentleman, did he?"

"Well—yes. It was the same thing."

"Ah! What was the exact word?"

"He said you were a slippery fellow."—Cleveland Leader.

Not Quite Clear.

Green—Jones was run over by a trolley car yesterday. They say he cannot recover. Brown—Who said he couldn't recover, his doctor or his lawyer?—Chicago News.

Her Idea.

Mr. Settledown—I'd prefer to stay at home once in awhile. My idea of domestic bliss was to have a home of our own. Mrs. Settledown—Exactly, and some place else to go to.

Admiration is the daughter of ignorance.—Franklin.

A Pleasure To All.

Could Not be Better.

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy has won for it a wide reputation and many people throughout the country will agree with Mr. Chas. W. Mattison, of Milford, Va., who says: "It works like magic, and is the best preparation I know of. It couldn't be any better." He had a serious attack of dysentery and was advised to try a bottle of this remedy, which he did, with the result that immediate relief was obtained. For sale by Gibson & Timberman and W. F. Creighton & Co.

Frightful Suffering Relieved

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at E. S. Leadbeater & Sons, drugstore, guaranteed.

Faith Not Necessary.

You may be just as skeptical and pessimistic as you please. Kodol will digest what you eat whether you eat or not. You can put your food in a bowl, pour a little Kodol Dyspepsia Cure on it and it will digest it the same as it will in your stomach. It can't help but cure Indigestion and Dyspepsia. It is curing hundreds and thousands—some had faith and some didn't. Kodol will cure you if medicine can cure you, whether you have faith in it or not. Sold by W. F. Creighton, & Co. 401 King street.

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER OF ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."
